

CHANGE IN LIBRARY

Will Be Moved to Third Floor of City Building.

PRESENT ROOM TOO SMALL

Board of Education Quarters to be Changed.

It is now being talked of with considerable probability that it will be carried to a successful conclusion, of moving the city library to the third floor of the City Building and that the Board of Education and Secretary's office will be transferred to that now occupied by the library.

If this scheme is done an elevator will be put in and run for the accommodation of the patrons of the library. It would be too much of a task for a great many of the older subscribers to have to walk to the top floor.

Although the plans have not been completed, those who are aware of it are heartily in favor of it. It will be necessary for the Board of Education and the City Council to agree. As the library is the best of the city's interests, there is very little likelihood of there being any friction regarding it among the city officials.

The room now in use for the library is entirely inadequate and with new books constantly arriving, with tables for papers and magazines the present library quarters are becoming cramped.

TO CURE NERVOUS DYSPESIA

To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Sturges' Dyspepsia Tablets.

Interesting Experience of an Indianapolis Gentleman.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame, are surprised that they are not cured by nerve medicine and spring remedies, the real cause of the mischief is lost sight of, the stomach is the origin to be looked after.

Nervous dyspepsia often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every other organ, in some cases the heart palpitates and is irregular; in others, the kidneys are affected; in others the bowels are constipated, with headache; still others are troubled with loss of flesh and appetite, with the accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper of No. 31 Prospect street, Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Sturges' Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. Until sometime ago, a temporary relief under the effects of the medicine was off. I attributed this to my sedentary habits, being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better, and am better in every way. The above is written not for notoriety, but is based on actual fact. Respectfully yours,

"A. W. SHARPER."

"Dr. Prospect street, Indianapolis, Ind." It is safe to say that Sturges' Dyspepsia Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache. Send for valuable little book on stomach diseases by addressing Sturges Co., Marshall, Mich.

MUSIC AND DRAMA

"A BREEZY TIME."

Fitz and Webster's "A Breezy Time Company" will be the attraction at the Crawford Grand Saturday, October 8, matinee and night. The place is a farce comedy, the plot of which is not so intricate as that of the usual farce, but the activity to follow it. It is not together simply for the purpose of giving the comedians an opportunity to exhibit themselves in their various splendid performances. The place is separated into three acts, and the author has worked on the principle that almost is the rule of farce, and "A Breezy Time" is all action. The first scene in the comedy is laid at a young student's apartments in Boston, who is being pursued by numerous creditors who all have accounts of long standing against him, and in the midst of all this confusion, "Daisy," his sweetheart, runs away from the university and comes to his apartments to tell him as they were going to be married some day, she thought they might as well get married right away, but before all arrangements can be made for the marriage, Uncle Reuben Merrifield (who is the uncle of Daisy and the unknown guardian of said student) arrives in the city, appears on the scene and is mistaken for Jack for one of his creditors who is pursuing him. Jack escapes as Uncle Reuben enters and finds Daisy, who after numerous explanations is taken back to her uncle's farm in Vermont, while Jack, who has assumed the disguise of Worry Walker, a tramp and a huge organ grinder, winds his way to Uncle Reuben's farm where he is mistaken for his creditors, and as soon as all explanations can be made, Uncle Reuben makes a final settlement with him and puts him in possession of the money he owes him. During the progress of the comedy, a number of specialties are introduced in a refined and artistic manner by the members of the company, closing the show with a burlesque cake walk which is one of the most cake walks ever seen in any farce comedy.

San Francisco, Oct. 6.—A. C. Cleveland of Nevada, who in this city, announces himself as a candidate for United States senator to succeed W. M. Stewart.

ALL BETTING ON STANLEY

Nobody Putting Up Money Against Wichita's Candidate.

The pool room headquarters at Jack Davidson's, 229 East Douglas, is an interesting place these days.

There are a number of bets on Stanley. There is one direct wager of \$50 that Mr. Stanley will be elected and it is not taken. Pops do not consider that safe betting.

There is another bet of \$50 on Smith, Republican candidate for associate justice that is not taken. There is another also of \$50 that Mr. Stanley will carry Sedgewick county. Most of the betting on the Pop candidates is on Boyle, for attorney general.

COBURN GIVES IT UP

Don't Know What Caused the Defeat of Butterflies.

Secretary Coburn of the state board of agriculture says he doesn't know what kind of butterflies those are which have been assailing Wichita and Topeka.

"I don't know what causes so many butterflies," said Mr. Coburn. "In fact no reports of unusual numbers of such insects have reached this department, so I am not prepared to render any opinion concerning them."

"I don't find your kind of butterfly here," said Mr. Coburn. "We don't seem to have them in stock."

"Have you any idea what causes so many or what produces them?" was asked.

"No, I can't say that I have," replied Mr. Coburn. "And yet," he added, "I have seen them from time to time."

"The butterfly in question is undoubtedly the danius archippus. This is a butterfly which is quite common at this season of the year. It is the last one seen in the fall and also the first one in the early spring. It is of a reddish brown color, marked with brown lines, and is from three to four and a quarter inches across the wings. It feeds on milk weeds, and I presume the localities in which it has been found so numerous are regions which abound in milk weed. I know of no other explanation for their great numbers. The worms feed on the milk weeds during the summer and the chrysalis hatches in the fall or early the next spring. The weather and other conditions may have been just right last week to hatch out great numbers of them with the result that in the localities where milk weeds abound thousands of them appeared almost every day."

NOT GERMANS NOW

Colonel Huttman's Definition of German-American.

ARE ALL AMERICANS

Day of Mirth-Making at Turner's Hall.

A jollier or better natured crowd than that at Turner's hall on South Main street yesterday never got together in Wichita. There was a liberal representation from out of the city, among whom were H. W. P. Keuhne, of Winfield; Frank Weinschenk, of Rochester, two or three from McPherson, and a hundred or more from St. Marks and other places over Sedgewick county.

The Germans' annual celebration of the Pastors' society is a mirth-making, hand shaking, lively American holiday. The specialties of Colonel W. E. Huttman and Mr. Keuhne indicated this.

The crowd began to gather at Turner's about 2 o'clock yesterday afternoon. At about 2:30 the afternoon concert by Prof. Blum's orchestra began. At 3 the Mannerchor sang some pretty selections and after responding to cheers after encore, Mr. Keuhne, of Winfield, was introduced by William Meyer, ex-governor of the state lodge of the Sons of Hermann, under the auspices of which all these celebrations are held. Mr. Keuhne's speech was scholarly review of the civic history of the German race from the time of the Roman invasion of central and western Europe to their colonization in America.

It was a learned dissertation upon the factors of civilization and social and scientific progress, confined chiefly to the efforts of one race—the Germans. After the conclusion of an hour's talk by Mr. Keuhne, the mannerchor sang a few more selections and the concert by the orchestra was taken up again. Besides the concert there were all sorts of social entertainment, telling of stories, fatherland reminiscences. At 6 o'clock some of the crowd went home, especially those who live outside the city. A great many remained on the ground, taking lunch at the numerous stands placed for the accommodation of visitors.

At 8 o'clock the visitors began to reassemble and hundreds went down from the city, among whom were Mayor Ross, the city and county officials.

There were several hundred people on the ground at night. At 8 o'clock the mannerchor sang in a delightful way several selections.

Otto Heller introduced Col. W. E. Huttman, who spoke in a very interesting way for fifteen or twenty minutes. He said, in part:

"While this is called the German's celebration, it should not be forgotten that above all, we are citizens of the United States. There are no Germans, no Swedes, no Irish, no Frenchmen, no Spaniards. We are Americans. We have taken our certificate of citizenship and pledged our faith and our loyalty to American government and American institutions, not as Germans but as Americans. We should now be as loyal to our adopted country as we were to the fatherland and its laws."

"These celebrations are personal holidays of memory and of retrospect. We need not be a family reunion. We have other ties. We have other duties, but there are associations which we are loath to see forgotten, and so we meet in this annual reunion. We are the
